## Rohit Sharma Retirement News: Is It Real or Just Speculation?

Rohit Sharma has not officially announced his retirement from international cricket. But the **Rohit Sharma retirement news** picked up after senior journalist Devendra Pandey of The Indian Express reported that BCCI sources say the upcoming third ODI against England at Lord's could be his last match for India. The report was quickly picked up and corroborated by other outlets, including Outlook India and Yahoo Sports. Here's exactly what has been reported so far, and what's still unconfirmed.

# What the Reports Are Actually Saying

The report states that India's senior selection committee recently sat down with Rohit Sharma alongside head coach Gautam Gambhir to discuss the road ahead. In plain terms, the panel wants to move Rohit Sharma out of 2027 World Cup plans and build the ODI setup around a fresh core without him.

Sources close to the BCCI say the selectors have clearly told Rohit that he isn't part of their plans after the England series — even though he wants to keep playing and has

worked hard on his fitness this past year. Reportedly, it's now up to Rohit himself to decide what he does next.

India face England in the third and final ODI of the series on July 19, and multiple reports now suggest this could be the Rohit Sharma last ODI in an India jersey. It would be a fitting, if bittersweet, stage — Lord's is cricket's most storied ground, and a farewell there would carry symbolic weight for a player often called "The Hitman."

Reports also say Rohit wasn't happy with how the decision was communicated and has raised it directly with a few BCCI officials. So this isn't a done deal yet — it's still being worked out.

## The Push for Yashasvi Jaiswal

Reports indicate the selection committee is keen on giving Yashasvi Jaiswal an extended run at the top of the order, with an eye firmly on the 2027 World Cup cycle. Jaiswal has been performing well whenever he's been given a chance, and the management reportedly feels it's time to build the opening slot around him rather than continue rotating combinations.

Based on current reports, Jaiswal replacing Rohit Sharma in India's ODI squad does appear to be the direction the team is heading — though nothing has been made official, and squad announcements for future series will be the real confirmation to watch for.

## Team Management Pushes Back on the Rumours

India's batting coach, Sitanshu Kotak, has denied these retirement rumours. He says there's no pressure on Rohit and that he's still an important part of the team's plans for now.

This matters because it shows two different sides of the team don't agree yet. The selectors seem ready to move on, but the coaching staff is saying otherwise. In short — nothing is final.

## Rohit Sharma's Retirement Timeline So Far

To understand why this ODI speculation feels significant, it helps to look at how the rest of his career has wound down format by format.

| Format | Retirement Date | Details |
| --- | --- | --- |

| | | |
|---|---|---|
| T20I | June 29, 2024 | Announced hours after India won the T20 World Cup in Barbados |
| Test | May 7, 2025 | Announced via an Instagram story ahead of the England tour |
| ODI | Not yet confirmed | Reports suggest a possible exit after the Lord's ODI on July 19, 2026 |

If the ODI retirement does happen, it would mark the end of a genuinely rare 50-over legacy — Rohit remains one of the format's most destructive openers, holding the record for the highest individual score in men's ODI history.

## Is the News Fake or Real? — The Verdict

This news is credibly reported, but not officially confirmed.

It's not a random rumour — the reports come from BCCI sources and have been confirmed by trusted outlets like The Indian Express, Outlook, and Yahoo Sports.

But Rohit himself hasn't said anything yet, and neither has the BCCI. In the past, Rohit has always announced his own retirements on his own social media. So until he does that this time too, it's best to call this "likely" — not "confirmed."

## What To Expect Next

All eyes are now on the third ODI at Lord's on July 19. This Rohit Sharma retirement Lord's storyline could end in a farewell match — or, going by Kotak's comments, he might continue beyond this series too.

Either way, the BCCI's bigger plan seems clear: build the ODI top order around younger players like Jaiswal before the 2027 World Cup, while giving senior players a proper, respectful exit whenever that time comes.

For now, the safest thing fans can do is treat this as developing news rather than a done deal. Keep an eye on Rohit's own social media channels and official BCCI communications — that's where any real confirmation will come from, not from unnamed sources or viral posts.
